Cefet/RJ

Our Institution

The Federal Center for Technological Education Celso Suckow da Fonseca (Cefet/RJ) had its origin in 1917 as the Normal School of Arts and Crafts Wenceslau Braz. Currently, it is a federal teaching institution that understands itself as a public space for human, scientific and technological formation. It offers technical courses integrated to the secondary, post-secondary, technological, graduate and post-graduate courses *lato sensu* and *stricto sensu* (Master and Doctorate), in both face-to-face and distance modalities. Cefet/RJ operates in the teaching, research and extension triad and aims at contributing to the training of well-prepared professionals for the economic and social development of mesoregions in the state of Rio de Janeiro. Since the expansion of the federal network of technical and technological education, the institution has been counting with its headquarters at Maracanã campus and seven other campi spread throughout the state of Rio de Janeiro: Angra dos Reis, Itaguaí, Maria da Graça, Nova Friburgo, Nova Iguaçu, Petrópolis and Valença.

Cefet Registration

Service portal integrated with the information systems in operation at CEFET/RJ. https://registro.cefet-rj.br/

Provides access to:

- Institutional email

- Microsoft Office 365

- Microsoft Teams and SharePoint

- Other Microsoft tools

- Call System

- Pearson Virtual Library

All students can register and access the system using the instructions that will be sent by the Academic Records Department.

Student Portal

After your registration, you will have access to the Student Portal. There you will be able to check your academic records, enrolment certificate and other documents. **https://alunos.cefet-rj.br/aluno**

To access the Portal after your registration, follow the instructions below:

Login

For all students, the login is your registration number in capital letters. It must be entered as shown in the following examples:

Postgraduate Students (Stricto / Lato): E.g.: 1234567ABCDMA Other Courses: E.g.: 1234567ABCD

Password

For all new students, the initial password is your date of birth in the format 'ddmmyyyy' (without slashes '/', only numbers).

Forgotten Password

If you have forgotten your password, simply proceed as follows:

1. Access the portal and click on 'I forgot my password'
2. Enter your registration number in capital letters and click Send Data
3. Open the email, click on the link and register a new password
4. Access the portal with your new registered password.

If you encounter any problems, open a ticket via the page **http://chamados.cefet-rj.br/open.php**

Diversity and Academic Excellence

Our Mission

Cefet/RJ maintains 11 stricto sensu postgraduate programmes, covering strategic areas of science, technology, education, and humanities. These programmes represent academic excellence and institutional commitment to training high-level researchers and professionals.

We train masters and doctors capable of contributing to the scientific, technological, and social development of Brazil. Each programme maintains specific research areas, qualified faculty, and adequate infrastructure for the production of cutting-edge knowledge.

Areas of Knowledge

- Engineering and Technologies
- Exact Sciences and Computing
- Education and Teaching
- Human and Social Sciences
- Regional Development

PPCIC

PROGRAMA DE PÓS-GRADUAÇÃO
EM CIÊNCIA DA COMPUTAÇÃO

Computer Science - PPCIC

Programme Focus

Advanced training in computing, encompassing artificial intelligence, distributed systems, software engineering, and high-performance computing.

Cutting-edge Research

Development of innovative solutions for complex problems in modern society through computer science.

Technological Impact

Significant contributions to digital transformation and technological innovation in Brazil and worldwide.

The PPCIC trains highly qualified researchers and professionals to work in research centres, universities, and technology companies. **Learn more about the programme** and consult the **performance indicators**.

Engineering Programmes

Electrical Engineering - PPEEL

Research in power systems, automation, power electronics, and telecommunications. Training of specialists for the electrical and industrial sectors.

Access the programme | **View indicators**

Production and Systems Engineering - PPPRO

Process optimisation, logistics, quality management, and sustainable production systems for Industry 4.0.

Access the programme

Mechanical Engineering and Materials Technology - PPEMM

Development in advanced materials, manufacturing processes, solid mechanics, and applied thermofluid dynamics.

Access the programme | **View indicators**

Instrumentation and Applied Optics - PPGIO

Advanced Technologies

The PPGIO is a unique programme that integrates scientific instrumentation and applied optics, developing sensors, measurement systems, and photonic technologies.

Research ranges from optical metrology to applications in biomedicine and telecommunications, with a strong impact on national technological innovation.

Find out more about the programme and view the **full indicators**.

PPGIO
PROGRAMA DE PÓS-GRADUAÇÃO *STRICTO SENSU* EM INSTRUMENTAÇÃO E ÓPTICA APLICADA

Programmes in Education and Teaching

Science, Technology, and Education - PPCTE Programme

This programme investigates the relationships between science, technology, and educational processes, training researchers capable of understanding and transforming scientific and technological education in Brazil.

The programme integrates knowledge from the fields of education, history, philosophy, and sociology of science.

Access | Indicators

Philosophy and Teaching - PPFEN Programme

Unique in Rio de Janeiro, this programme specialises in the interface between philosophy and education, developing research on philosophy teaching, teacher training, and reflective pedagogical practices.

It contributes to the qualification of philosophy teaching in basic and higher education.

Access | Indicators

Contemporary Perspectives in Education - PPPCE Programme

This programme analyses contemporary issues in Brazilian education, including educational policies, diversity, inclusion, and pedagogical innovations.

It trains researchers committed to the democratisation and quality of education.

Access the programme

Ethnic-Racial Relations - PPRER

National Pioneering

The PPRER is a pioneering programme in Brazil, exclusively dedicated to the study of ethnic-racial relations, racism, affirmative action policies, and cultural diversity.

Knowledge Production

It develops interdisciplinary research that contributes to the understanding of racial inequalities and the building of a more just and inclusive society.

Social Impact

It trains researchers committed to social transformation and the implementation of public policies aimed at racial equity in Brazil.

The programme articulates different fields of knowledge to investigate the multiple dimensions of ethnic-racial relations in Brazilian society. **Find out more** and consult the **indicators**.

Regional Development and Productive Systems

PPDSP

The Postgraduate Programme in Regional Development and Productive Systems investigates territorial dynamics, local productive arrangements, and regional development processes.

With an interdisciplinary approach, the programme connects economics, geography, sociology, and management to understand and intervene in Brazilian regional realities.

Learn about the programme | **View indicators**

Energy and Society - PPGES

Energy Systems

Analysis of energy generation, transmission, and distribution systems with a focus on sustainability.

Renewable Energies

Research into alternative sources and clean technologies for the energy transition.

Social Dimension

Study of the social, economic, and environmental impacts of the Brazilian energy matrix.

The PPGES is an interdisciplinary programme that combines engineering, economics, sociology, and politics to understand contemporary energy challenges. It trains professionals prepared to work in the management and planning of the national energy sector. **Access the programme** and check the **performance indicators**.

Research Areas and Scientific Output

Research Infrastructure

The programmes boast modern laboratories, specialised libraries, and advanced technological resources that support cutting-edge research in their respective fields.

Qualified Faculty

Doctoral professors with research experience, regular scientific output, and active participation in national and international academic collaboration networks.

Relevant Scientific Output

Publications in high-impact journals, participation in international conferences, patent development, and technology transfer to society. **Check our Reserach and Postgraduation indicators**.

Holistic Training

Beyond technical excellence, the programmes develop competencies in teaching, research ethics, scientific dissemination, and social responsibility.

Cefet/RJ
Useful Information

Student Restaurant

Maracanã Campus

With two floors and capacity for 210 people, the student restaurant at the Maracanã campus opened its doors on 27 January 2020. The space serves lunch to students, civil servants and outsourced employees of Cefet/RJ, as well as snacks to all integrated secondary, subsequent and undergraduate students who are part of the Maracanã campus Student Assistance Programme. The student restaurant is open from Monday to Friday (except public holidays), next to the new sports court.

Opening hours
From 8:30 a.m. to 9:10 a.m. (morning snack)
From 11 a.m. to 2 p.m. (lunch)
From 4:05 p.m. to 4:45 p.m. (afternoon snack)
From 6:20 p.m. to 7:10 p.m. (evening snack)

Meals will only be provided upon validation of the individual QR code at the Student Restaurant reception. Access the webpage of the **Student Restaurant**.

Transport options

Maracanã Campus

The Maracanã campus is accessible by bus lines that depart from all areas of the city and the metropolitan region of Rio de Janeiro, as well as by urban train and metro lines that pass through São Cristóvão Station, located a few metres from the campus. For more information, please visit:
